

Information and Options for Beef cutting Instructions.

PLEASE READ FIRST:

This is **very important** information we need to know for cutting instructions on a beef. If there is a cut you do not want or would not use, we can offer other suggestions for that cut. The most important information we need to know for the cutting is: How thick you want your steaks, how many pieces you want in a package, and what size you want your roasts. Keep in mind any cut can be ground up in with your hamburger if you do not want it. If you are getting a whole beef or a 1/2, you can choose any way you would like it cut.

* * * If you are getting a 1/4 of beef your choice of cuts **MUST** match the cutting choices as the person getting the other 1/4. Except you may have your hamburger packaged in the size of your choice.
